Structure refers to the way words or sentence parts fit together.

• Cause is a thing, idea, event, situation, etc.
• Effect is a thing, idea, event, situation, etc. resulting from something else.

CAUSE & **EFFECT**

• Cause can have more than one effect.
• Effects can have only one cause.

SUMMARY: Cause and effect is a type of text structure which shows how one event in ideas leads another one. It helps us to understand the relationship between events or ideas.

How good is your English?

- Many people feel the harder words are the longer ones: effervescent, uninhabitable, disenfranchisement.
- However, in my opinion the little ones are trickier! Big words usually very specific, whereas small words have many meanings.
- To show my point, all of these slides show three pictures. Each of the pictures represents ONE word.
- See if you can figure out what the pictures have in common.
